WHY CLIENTS CHOOSE THIS

A polished message, ready to share.

Turn an approved script into a clear, on-brand avatar video for executives, training, events and campaigns - with a streamlined production workflow.

1080P

Clean MP4 delivery

Starter from US\$39 · one video up to 90 seconds

APPROVAL GATE

Brief locked before generation

From production marathon to controlled flow.

Spend less time filming and more time communicating. AI Avatar production keeps creative judgement and human review, while reducing production overhead, scheduling pressure and repeated on-camera takes.

BEFORE · TRADITIONAL PRODUCTION

Studio booking, crew, lighting and sound, wardrobe and setup.
Rehearsal, memorising or teleprompter practice.
Camera pressure and multiple takes - the familiar on-camera NG moments.
Editing, captions, factual checks, approval, publishing and costly late corrections.

Time cost: every meaningful change can mean another round of filming.

NOW · AI AVATAR PRODUCTION

Validate the script, delivery and visuals, then confirm 'Approved to generate' in writing.
A basic AI-assisted grammar and clarity pass flags obvious issues before generation.
No studio, crew, rehearsal or physical reshoot required.
Keep delivery, background and captions consistent.
Finish with human QA before publish.

Technical rerenders needed to match the approved brief are included. Client-requested changes after generation are chargeable.

WHY CLIENTS CHOOSE AI AVATAR VIDEO

SAVE MONEY

Reduce studio, crew, travel and repeat-shoot overhead.

SHARPEN THE SCRIPT

AI checks basic grammar and clarity in the selected language; you approve every word.

SAVE TIME

Skip rehearsal days, camera scheduling and retake loops.

STAY CONSISTENT

Keep voice, delivery, captions and brand aligned at scale.

Start with one. Save as you scale.

Choose any client-selected narration and subtitle language; one language is included per video. Suitable avatar and voice availability is confirmed before approval.

Best long-term value

Every short-form video includes

- Up to 90 seconds
- Basic AI grammar and clarity check
- Branded background
- 1080p MP4 delivery
- Client-supplied approved script
- Professional AI avatar and voice
- Narration + subtitles in one language
- One consolidated pre-generation review

[CONTACT ON LINKEDIN](#)

Production begins only after the complete brief, rights/consents and written 'Approved to generate' confirmation are received. Client-requested changes after generation are charged separately.

Longer messages. Same polished finish.

The US\$39 starter offer covers one video up to 90 seconds only. For longer programmes, choose a maximum runtime below and we will shape the production around your approved brief.

What is included

- Approved script and content structure
- Professional avatar, voice and branded background
- Basic AI grammar and clarity check
- Scene assembly plus human QA for names and dates
- One consolidated pre-generation review
- Narration + subtitles in one selected language

Projects longer than 10 minutes may be produced in sections. Each section is validated before generation and assembled into one final video. Additional client changes before approval may be quoted; all client-requested changes after generation are chargeable.

DISCUSS A DURATION

What we need from you

Every material choice is validated before generation. Your written 'Approved to generate' confirmation locks the brief and prevents avoidable regeneration costs.

01 Final approved script

Correct names, titles, dates and pronunciation notes.

02 Audience and tone

Who will watch, and whether delivery should be formal, warm or energetic.

03 Brand assets

Logo, brand colours, preferred background and mandatory visual elements.

04 Language, avatar and voice

Narration/subtitle language, voice, tone, timing, music and output ratio. Availability is confirmed before approval.

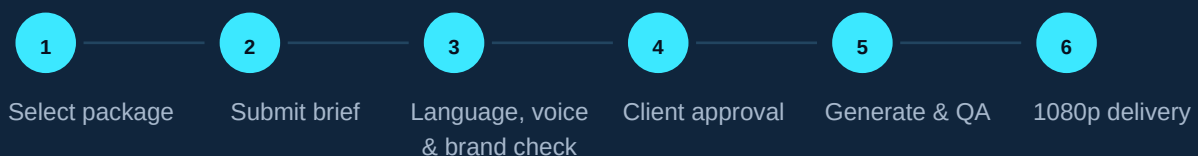

05 Rights and consent

You must own supplied assets and provide written consent for custom likeness or voice.

06 Final approval to generate

Review the summary, then reply 'Approved to generate' to lock the brief.

Approval-gated production flow

Approval policy: One pre-generation review is included. Validate the script, narration/subtitle language, voice, timing, format, music and visuals, then confirm 'Approved to generate'. This locks the brief. Client-requested changes after generation are charged; mismatches against the approved brief are corrected free.

[DISCUSS YOUR BRIEF](#)

See the service in action

These client-supplied examples show how an approved brief can become a polished finance update with a professional virtual presenter.

Dr. Xi - One-Minute Finance Briefing
Mandarin financial-news delivery with a calm executive presence.
