WHAT THIS SERVICE ACTUALLY DOES

Your on-demand video presenter.

Not a cartoon avatar or Zoom character. It is a realistic presenter created from your authorised face and voice, then reused for future approved scripts.

YOUR FACE

Authorised likeness

YOUR VOICE

Consented recreation

MULTILINGUAL

Selected voice + subtitles

REUSABLE

Future scripts, no new shoot

Video production from US\$39 · personal AI presenter setup quoted separately

From production marathon to controlled flow.

Spend less time filming and more time communicating. AI Avatar production keeps creative judgement and human review, while reducing production overhead, scheduling pressure and repeated on-camera takes.

BEFORE · TRADITIONAL PRODUCTION

Studio booking, crew, lighting and sound, wardrobe and setup.
Rehearsal, memorising or teleprompter practice.
Camera pressure and multiple takes - the familiar on-camera NG moments.
Editing, captions, factual checks, approval, publishing and costly late corrections.

Time cost: every meaningful change can mean another round of filming.

NOW · AI AVATAR PRODUCTION

Validate the script, delivery and visuals, then confirm 'Approved to generate' in writing.
A basic AI-assisted grammar and clarity pass flags obvious issues before generation.
No studio, crew, rehearsal or physical reshoot required.
Keep delivery, background and captions consistent.
Finish with human QA before publish.

Technical rerenders needed to match the approved brief are included. Client-requested changes after generation are chargeable.

WHY CLIENTS USE IT

SAVE MONEY

Reduce studio, crew, travel and repeat-shoot overhead.

SHORT UPDATES

LinkedIn posts, announcements and weekly news.

SAVE TIME

Skip rehearsal days, camera scheduling and retake loops.

TRAINING & EVENTS

Lessons, invitations and welcome messages.

One presenter. Every message that matters.

Once your personal AI presenter is approved, it can help you publish consistently across social channels, learning, events and corporate safety communication - without arranging a new camera shoot for every message.

PERSONAL CHANNELS

X, TikTok, YouTube and Facebook
Regular expert updates without camera days

LESSONS & TRAINING

Online lessons, safety induction and refresher training
Repeatable delivery in selected languages

INVITATIONS & SPEECHES

Event invitations, welcome messages and speeches
Professional delivery, even across time zones

MEETINGS & CAMPAIGNS

Event openings, employee town halls and safety promotions
A consistent host for every important moment

CORPORATE INFLUENCE

Safety product promotion and corporate safety culture
A recognisable spokesperson for your organisation

Think of it as your always-ready presenter: your approved face and voice, ready for the next script - not a cartoon character and not a replacement for your judgement.

Start with one. Save as you scale.

Choose any client-selected narration and subtitle language; one language is included per video. Suitable avatar and voice availability is confirmed before approval.

What is included

- Approved script and content structure
- Basic AI grammar and clarity check
- One consolidated pre-generation review
- Professional avatar, voice and branded background
- Scene assembly plus human QA for names and dates
- Narration + subtitles in one selected language

For videos longer than 10 minutes, one consolidated approval covers the complete script and visual plan. Production may then be completed in sections and assembled into one final video. Client-requested changes after generation are chargeable.

DISCUSS A DURATION

What we need from you

Every material choice is validated before generation. Your written 'Approved to generate' confirmation locks the brief and prevents avoidable regeneration costs.

01 Final approved script

Correct names, titles, dates and pronunciation notes.

02 Audience and tone

Who will watch, and whether delivery should be formal, warm or energetic.

03 Brand assets

Logo, brand colours, preferred background and mandatory visual elements.

04 Language, avatar and voice

Narration/subtitle language, voice, tone, timing, music and output ratio. Availability is confirmed before approval.

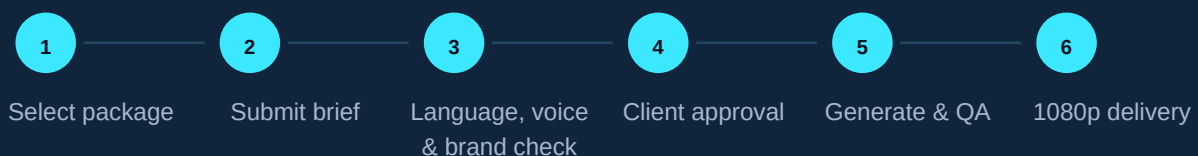

05 Rights and consent

You must own supplied assets and provide written consent for custom likeness or voice.

06 Final approval to generate

Review the summary, then reply 'Approved to generate' to lock the brief.

Approval-gated production flow

Approval policy: One pre-generation review is included. Validate the script, narration/subtitle language, voice, timing, format, music and visuals, then confirm 'Approved to generate'. This locks the brief. Client-requested changes after generation are charged; mismatches against the approved brief are corrected free.
